## Our Company

We are dedicated to helping our clients maintain as much independence as possible in their own homes.

Whether the requirements are assistance with the challenges of daily living, full care due to a chronic illness, or recuperating from a hospital stay - we're here to help.

Home & About employs only professional and experienced providers. They will work as part of a team with our clients and their families. All of our caregivers have undergone reference and criminal background checks. They are bonded, insured and most importantly they are someone you can rely on.

Our services begin with a free in-home, no obligation assessment / evaluation. Based on the information gathered, we create a plan specifically to meet your needs. This is also a good opportunity for us to get to know your personal preferences and lifestyle so we can choose a compatible caregiver.

There is a difference in our care – Our emphasis has always been that we are a home-CARING company. We pride ourselves in doing things differently, providing care services as we would want available for ourselves, for our own family. Quality care is what we are all about.
